

## Aircraft Technician Safety Meeting: PAUSE for Procedures!

At this event you will learn all about PAUSE: Personal Awareness Using Situational Evaluation. It is a tool that was developed to help YOU to Stop or Pause before YOU move forward and take action to accomplish a task. We will also discuss Failure to Follow Procedures, which emphasizes the number 1 national maintenance related error causal/contributing factor in aviation accidents. Don't miss it. Click on the link below and register TODAY. All repair station employees and technicians will better understand why to FOLLOW PROCEDURES and PAUSE before they proceed on a task.

**Directions:** The event will be held on the JAARS Center Campus in the Aviation Training Classroom. Park behind the Aviation Administration Building and enter the building on the lower level from the parking lot.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
